

Deanre Communications Headset System Amplifier

Deanre Communications are pleased to introduce their

Headset Amplifier Unit

*To our ever increasing range of motorcycle related
communication products*

Experience increased volume for incoming radio signals.

*The Unit features an integrated 3.5 watt mono amplifier
which simply plugs in-line on our existing range of Headset
Systems.*

*The amplifier is powered by 12 volts and requires a power
connection via the motorcycle's electrical system.*

Covered by 12 months warranty.

**MCH-HS-AMP
\$ 67.50**
